### **About Barco Abrasives**

We're a nationwide distributor of quality abrasives, cutting tools, and hand tools. The company was started in 1970 as an abrasives warehouse/distributor serving all parts of the **Northeast, from Maine to Florida, and out to the Mid-West.**

Since then we've helped production managers, factory machinists, and foremen optimize their manufacturing process with **custom, specialty, and in-stock products.** Close affiliations with our suppliers' engineering departments assure you the right tool for the job.

We've worked with companies such as **General Electric, Raytheon, and DuPont** on their cutting tool grinding and polishing requirements. That includes **Tools-To-Print** work and in-stock items, large and small. Barco Abrasives, Inc. is also an **approved supplier of the State of New York and the Federal Government.**

Our owner, **Karen Schue-Baruth**, has worked for over 20 years at Barco Abrasives, designated a **New York State Woman Owned Enterprise in 1991.** She speaks personally with each of her clients, drawing from her experience to recommend a wide variety of products for various applications.

We handle both large and small items in our **5,300 square foot warehouse** located in Rome, New York. Everything from large diameter wheels to small drill bits. **Low overhead makes our prices very competitive.** Give us a call today...we look forward to speaking with you!
